Liberty™

TECHNICAL SPECIFICATIONS

L3JB5

L3JB5 DOME INSTALLATION GUIDE:
### Installation of L3IP4VFDS & L3IP8VFDS

1. Paste the positioning label (arrow up direction).
2. Drill holes for screw locations, insert plastic anchors into the holes.
3. Install the backbox by aligning the four holes with the plastic anchors (arrow up direction). Install the 4 screws into the anchors.
4. Fit gasket onto the backbox.
5. Unscrew the screws with wrench on camera, open the bubble.
6. Connect the cables. Install the camera base by aligning the three holes with the three threaded holes on backbox.
7. Adjust the monitoring direction of the camera, install the camera bubble and fasten the screws.

Installation of LA5VFDIR100 & LA5VFDIR100IN

1. Paste the positioning label (arrow up direction).
2. Drill holes for screw locations, insert plastic anchors into the holes.
3. Install the backbox by aligning the four holes with the plastic anchors (arrow up direction). Install the 4 screws into the anchors.
4. Fit gasket onto the backbox.
5. Unscrew the screws with wrench on camera, open the bubble.
6. Unscrew the screws that fix the inner shell, then the three holes on the bottom can be seen.
7. Install the camera base by aligning the three holes with the three threaded holes on backbox. Connect the cables.
8. Install the inner shell on the base.
9. Adjust the monitoring direction of the camera, install the camera bubble and fasten the screws.

ABOUT THIS BRACKET – Read Before Use

1. Before installation, please check the bracket packing and accessories are intact. If the bracket is damaged or missing accessories please contact us at 855-388-7422.

2. Do not exceed the MAX load listed on the bracket label.

3. Check the installation area and make sure it will support the total weight of the installed product and bracket.

4. Bracket ships with installation screws, check the material the bracket will be installed onto and use appropriate screws based on the material (may not be supplied with bracket).

5. If the bracket is installed near the ocean or areas exposed to heavy chemicals corrosion may occur which can affect the strength of the bracket. Check the bracket regularly for corrosion.
